Announcements

Submit your V2 homework!

Submission period is extended through tomorrow.

Documentation Demos

Extension

V3 Extension: Photo Albums

👉 V3 of your app should allow you to sort images into photo albums. These are the requirements:

- A user should be able to create and name photo albums;
- A user should be able to select a photo album to add an image to;
- An image can be added to multiple photo albums;
- The photo album should persist across sessions (you'll need to store the album data somewhere).

V3 Extension: Photo Albums

👉 V3 of your app should allow you to sort images into photo albums. These are the requirements:

- A user should be able to create and name photo albums;
- A user should be able to select a photo album to add an image to;
- An image can be added to multiple photo albums;
- The photo album should persist across sessions (you'll need to store the album data somewhere).

👉 **!!!EXTRA CREDIT!!**

Implement social media sharing to Facebook and Twitter in exchange for one initial homework assignment (Flask app V1 or V2) grade set to 100%
